Diplomacy and Negotiation

EXPERIENCE

VIGILENT CONTRACT POSITION, 4/2014-PRESENT (DATACENTER COOLING SYSTEMS MANUFACTURER)

- Using Wordpress, Git, PHP, HTML5, CSS, Javascript, jQuery to develop the customer support website.
- Using the same as above plus troubleshooting and logic skills to improve and maintain their main website on an ongoing basis.

<http://support.vigilent.com>

<http://vigilent.com>

PLANTRONICS CONTRACT POSITION, 12/2013-3/2014 (HARDWARE MANUFACTURER)

- Used HTML, Teamsite, CSS, Javascript, jQuery, Zurb Foundation, JSP and an ATG database to design & develop sections of www.plantronics.com.
- Troubleshoot and fixed code written by other developers

<http://www.plantronics.com> – hundreds of small changes, additions, bug fixes, etc.

<http://www.plantronics.com/us/ey> - Consulted, contributed to the design, and created the front end for this support portal.

<http://www.plantronics.com/us/reviews> - Used AJAX to create the auto-fill in the form input.

<http://www.plantronics.com/us/support/catalog/product.jsp?skuId=sku6310024&prodId=blackwire-500#support> – Consulted and adapted the product details page to a layout more conducive to receiving technical support for a product.

<http://qa.plantronics.com/us/partners/dealer-connect.jsp> - Implemented jQuery and Javascript functions to show and hide field sets in the form based on selections the user made.

<http://qa.plantronics.com/us/partners/gca-register.jsp> - Implemented reCaptcha for spam filtration.

EXPERIENCE
CONT

CODING DOJO 6/2013-8/2013 (CODING BOOTCAMP)

- Used HTML, Git, CSS, Javascript, jQuery, Zurb Foundation, Twitter Bootstrap, PHP, MySQL, Code Igniter and Ruby on Rails to complete many working web projects in a fast-paced, high-pressure environment.
- Practiced Object Oriented and Procedural Style Programming
- Always coded for 12 hours a day or more.

FREELANCE WEB DEVELOPER 2010-2013

- Used HTML, CSS PHP, Wordpress and MySQL to do full stack development on a number of websites, here are a few examples:

<http://sunsupsolar.herokuapp.com> (HTML, CSS, Rails 4, Postgres)

This site is currently in development for a solar systems installer.

<http://uhl.com> (HTML, CSS, PHP, MySQL, Wordpress)

This is a site for a real estate brokerage. This one leverages several APIs to tie into the Realtor Multiple Listing Service and social media.

DIGIDESIGN 1997-2006 (AV PRODUCTION EQUIPMENT & SOFTWARE MANUFACTURER)

- Technical support representative on all oversight committees for new products. This put me in a perfect position to contribute to the entire development process.
- Technical support department for two years handling phone, fax, email and web support for our customers.

“Bryan was instrumental in developing a position in which we were able to handle customer complaints and get problems solved where we could not before. He really took the ball and ran with it. His creativity, personality and leadership will be missed here at Digidesign.”

-Bob Langlie, VP Customer Service, Digidesign

LIVING BOOKS 1995-1997 (MULTIMEDIA CDROM COMPANY)

- Sound Design & Sound Engineering. Recorded, edited and produced the music, dialog and sound effects for this award winning line of children’s CDROMs.

“On his own, he revolutionized our audio production process by automating simple tasks we used to do by hand. Now the entire department does in hours what we used to do in weeks.”

-Bob Marshall, Sound Designer Supervisor, Living Books

EDUCATION

2013 Coding Dojo Graduate

LEADERSHIP

I am a US Coast Guard licensed master mariner and as Captain I have successfully organized crews and delivered two sailboats across the pacific from California to Hawaii.
